# Maßtabelle für Stoßdämpfer

## Measure table for shock absorbers

Die Maßtabelle in dieser vereinfachten Darstellung dient ausschließlich zur Referenzierung für Ersatzteilnummern, welche in diesem Katalog enthalten sind. Die Stoßdämpfer dürfen keinesfalls ausschließlich aufgrund der Abmessungen ausgewählt werden, da auch bei gleichen Außenmaßen völlig unterschiedliche Dämpfungskräfte erzeugt werden können. Stoßdämpfer mit gleichen Außenmaßen aber unterschiedlichen Dämpfungskräften können die Sicherheit des Fahrzeugs erheblich beeinträchtigen!

The dimension table in this simplified illustration serves only to provide a reference for spare part numbers that are contained in this catalog. Under no circumstances may the shock absorbers be selected based solely upon the dimensions as it is also possible for completely different damping forces to be created even if the exterior dimensions are the same. Shock absorbers with the same exterior dimensions but different damping forces can significantly impair the safety of the vehicle. [Translations No. 171]
